SUMMARY

I am a Full Stack Developer who loves ReactJS. I spent 8 amazing months at BlueShore Financial as a co-op student developing internal applications, updating code and documenting new software. In my spare time, I enjoy attending hackathons to be innovative and to challenge myself with new technology stacks.

SKILLS AND ABILITIES

Languages

- C, C#, Java, JavaScript, Ruby, HTML, CSS

Frameworks & Libraries

- Angular, AngularJS, Express, Ionic, NodeJS, ReactJS, Rails, Ajax, EJS, jQuery, Bootstrap, Material UI, Storybook
